**To the Patent Office:**

This response to a Final Official Communication mailed by the U.S. Patent Office on April 21, 2005, has been previously submitted and is being resubmitted in this Request for Continued Examination. In a subsequent advisory action, the Office has stated that the amendments in a previous response raised new issues that would require further consideration. More particularly, the Office alleges that the limitation of "enabling a website to transfer information" requires further consideration and/or searching. The applicant has removed this limitation from the claims and has placed the claims in condition for allowance.
